Opening doors to a greener environment

## Welcome

Sitemaster are dedicated to supplying the best range of products to house builders and contractors across the UK. We have the experience to supply architectural ironmongery, eco home products, bathroom and cloakroom accessories, cycle storage, loft traps, access panels and mailboxes. We have recently launched our new range of products, which includes garage doors and entrance canopies.

Greenmaster is our comprehensive range of environmental products designed specifically to meet the needs of providing Sustainable Homes. These quality products contribute to reductions in household energy use and provide composting and recycling solutions, whilst protecting wildlife in their natural habitat. Healthy lifestyles are encouraged with the provision of secure cycle storage facilities.

Greenmaster is primarily targeted at residential developments, but many bike storage and refuse management products are used widely in commercial and public projects too.

At Sitemaster we value your business and trust this brochure proves beneficial to you. With our commitment to service, competitive pricing and nationwide deliveries, our sales team are waiting for your call.

Rest assured, we are continually committed to making Sitemaster your supplier of choice.

## Cycle Storage – Multi

### Cycle Storage Range

Sitemaster supply an exclusive range of Cycle Storage and Security products to suit any number of bikes. We have provided details on our most popular products, but supply many others. We offer a full technical and scheduling service to ensure the most suitable products are supplied at the most competitive rates.

### 10-Space Amazon Eco Shelter

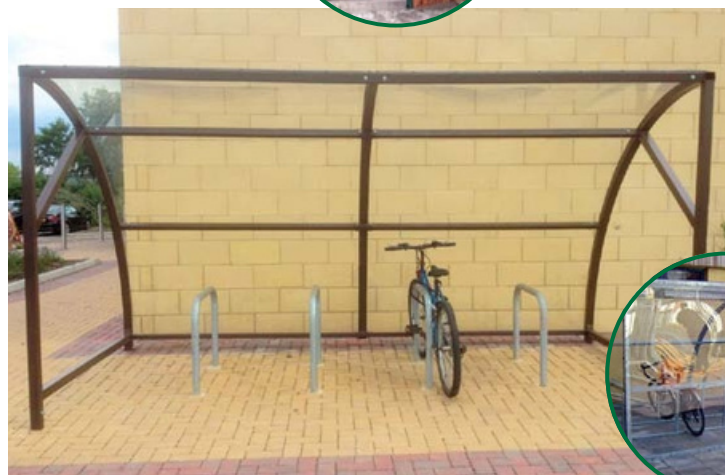

The three sides of this fully-enclosed secure cycle shelter are FSC wood clad, while the door can be supplied as either a sliding cage door or a hinged, fully-enclosing wood clad double door. Available in green or black.

### 10-Space Original Cycle Shelter

Secure cycle shelter supplied with bike toast rack stands. Supplied in galvanised finish as standard, or in a selection of RAL paint colours. Can be supplied with sliding or hinged gates to fully enclose. BREEAM compliant.

### Two-Tier Bike Rack

Accommodates all types of cycles. Both the wheel and the frame are able to be locked to the rack. BREEAM compliant.

## Cycle Storage – Multi

### Semi Vertical Cycle Rack

The most popular high-density bike storage solution that complies to SBD requirements. Supplied wall mounted as standard, or in back-to-back format on request. BREEAM compliant.

### 3 or 5 Space Cycle Rack

This budget cycle rack can be used for both internal and external use.

### HiLo Bike Rack

The HiLo rack provides a high density floor mounted option for any number of bikes.

### Indoor Vertical Wall mounted Cycle Hanger

This hanger is an ideal, low budget solution for use where space is restricted. Can be used with our Brute Force Anchor for SBD compliance.

# Bat and Bird Nesting Boxes

## Bat and Bird Nesting Boxes

As ecology is such an important part of new developments, Greenmaster have put together an enviable range of Bird and Bat Boxes supplied by the leading manufacturers. We can provide solutions to all requirements and can provide a full technical and scheduling service for these products.

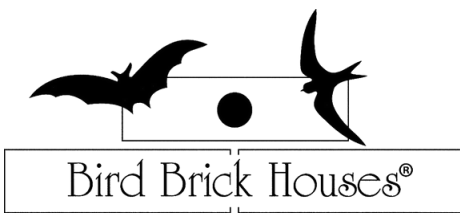

## Schwegler

For more than 65 years, Schwegler has been a major brand for bird protection and nature conservation products. Schwegler is famous worldwide for their unique wood-concrete material, which is 75% wood making it very durable and environmentally friendly.

## Bird Brick Houses

A farming background and a passion for wildlife with long-standing building expertise have produced this integrated solution for incorporating nesting boxes into brick walls.

## Bat and Bird Nesting Boxes

### Ibstock

Ibstock have been making bricks for over 100 years and their current range of bat boxes helps to encourage safe habitats for these protected mammals. Available in all brick types, discreet and maintenance free.

### Habibat

Manufactured to suit any existing brick or stonework finish, Habibats can be joined side by side to increase the roost space. This box is made to order and can be faced in brick to match your building or supplied unpainted.

# Bin and Cycle Store Door Ironmongery

## Bin and Cycle Store Door Ironmongery

Greenmaster provide this exclusive package of door ironmongery products designed for communal bin and cycle stores.

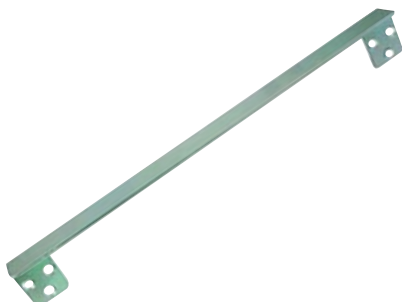

### A Satin Stainless Steel Grade 13 Security Ball Bearing SBD Hinge

This robust hinge has an additional security peg that locks into place when the door is closed. This prevents the door from being lifted from its hinges if the hinge itself is attacked. Very effective additional and hidden security which makes it an excellent choice for high specification commercial projects, or where security is paramount.

### B Heavy Duty Push Button Lock

Mechanical push-button lock with heavy duty tubular latch. When the right code is entered, the handle will retract the latch and the door can open. The spring loaded latch bolt automatically locks the door on closing. Stainless steel PVD, weather-resistant, low maintenance finish. Also suitable for use in commercial buildings, hospitals, schools, hotels and leisure, warehouses, industrial buildings and transportation.

### C Grey Anti-Thrust Lock Guard Plate

Narrow style plate, ideal for commercial applications where locks are in a vulnerable area. Side fixing screws.

# Bin and Cycle Store Door Ironmongery

Package includes:

	Outward opening		Inward opening	
	Double Door	Single Door	Double Door	Single Door
A	3	2	3	2
B	1	1	1	1
