Everything you need in a trade ironmongery and building products partner

At Sitemaster we pride ourselves on the quality and range of ironmongery and building products we offer. We supply everything from the simplest door handle through to garden storage, everything from a door stop right up to roof windows – and every requirement in between.

With over 21 years of experience in providing a quality service to house builders and contractors across the UK, we have forged strong relationships with the leading architectural ironmongery and building product manufacturers. We remain committed to innovating our product range, to keep Sitemaster at the forefront of the challenges you face with tomorrow's projects.

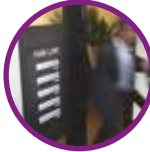

Our passion for service starts with our friendly sales team, extensively trained to ensure strong product knowledge with industry leading levels of service. We can prepare comprehensive ironmongery quotations direct from your floor plans and door schedules. Always ensuring the products meet or exceed relevant certification and legislative requirements.

Sitemaster supply nationwide and we are keen to make Sitemaster your supplier of choice. We trust this brochure proves beneficial to you and emphasises our commitment to our product range.

Yours,

Richard Young  
Sales Director

Sitemaster provide a comprehensive ironmongery scheduling service chosen by regional and national house builders.

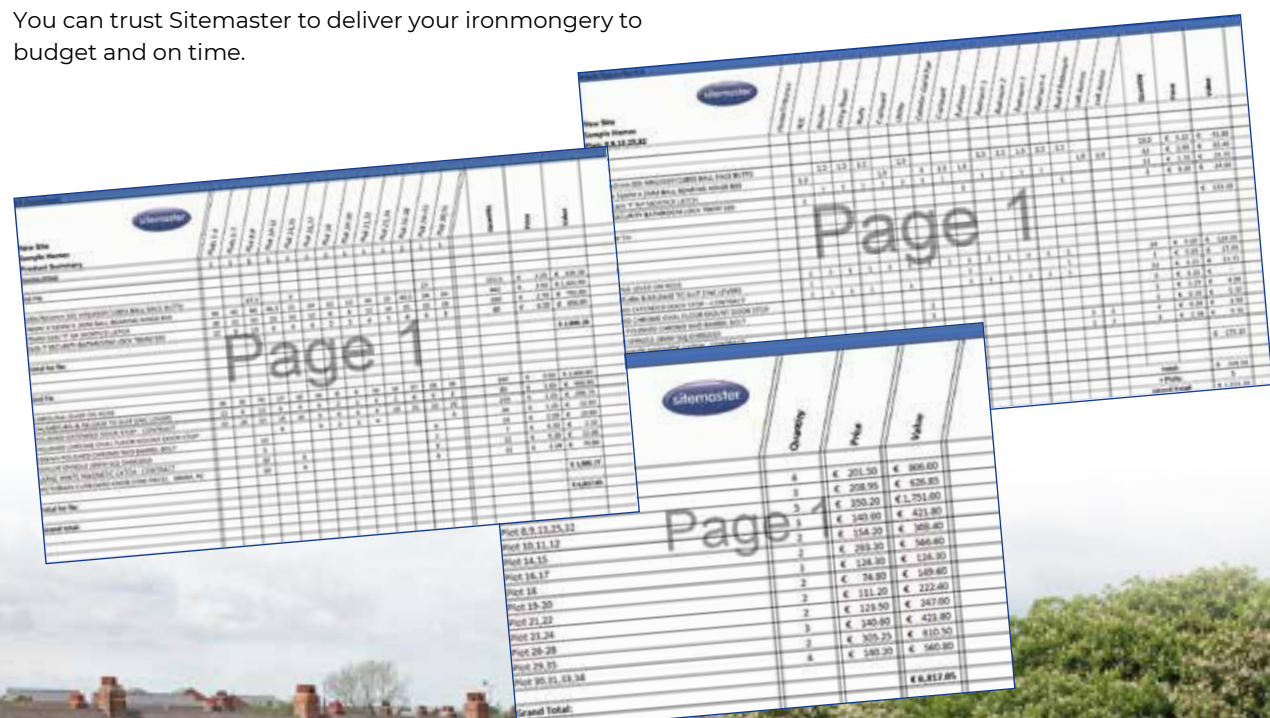

Our team of technicians can prepare schedules direct from your supplied plans and build schedule. We work with the ironmongery specifications you provide and are also happy to suggest reliable and cost effective alternatives where appropriate. Where there are regulatory or legislative requirements, for instance with communal areas and DDA, we will ensure all products meet or exceed the relevant specifications.

With our extensive product range, we can also schedule your signage, Greenmaster, bathroom and other products within our range to provide a comprehensive and reliable single source solution.

Our user-friendly schedules make for easy understanding no matter what the size or complexity of the project. Deliveries of ironmongery can be packed in either complete plots or separately into first and final fix – the choice is yours.

You can trust Sitemaster to deliver your ironmongery to budget and on time.

#### Certifications

**CE marking**  
CE marking applies to products where the BS EN standard has been harmonised under the Construction Products Regulation.

**BS EN 179**  
This standard relates to lever handle or push pad hardware used on emergency exits not necessarily designed for panic situations.

**BS EN 1125**  
This standard relates to horizontal bars on escape doors intended for use in panic situations.

**BS EN 1154**  
This standard relates to mechanically controlled door closing devices.

**BS EN 1155**  
This standard relates to electromagnetic door closers and floor springs for swing doors.

**BS EN 1158**  
The standard relates to door coordinator devices intended for use on fire resisting doors and smoke control doors.

**BS EN 1303**  
This standard relates to cylinder locks and their resistance to physical attack, durability and key security.

**BS EN 1634**  
This standard relates to the fire resistance of door and shutter assemblies, including door hardware.

**BS EN 1906**  
This standard relates to sprung and unsprung lever handles and knob furniture.

**BS EN 1935**  
This standard relates to single-axis hinges for use on windows and doors, both fixed pin and lift-off.

**BS 8300**  
This standard relates to products designed to meet the specifications for accessible and inclusive buildings.

**BS EN 12051**  
This standard relates to the performance of single point bolts and associated keeps for doors and windows.

**BS EN 12209**  
This standard relates to mechanically operated locks, latches and locking plates.

**BS EN 12320**  
This standard relates to the security performance of padlocks and padlock fittings.

**BS EN 14846**  
This standard relates to electro-mechanically operated locks and striking plates.

**Sold Secure**  
This standard relates to physical security products designed to prevent theft of bicycles and motorbikes. Products are certified into one of three standards, defining their resistance to attack.

**Loss Prevention Certification Board**  
This standard is designed to rigorously test fire safety and security products to ensure they perform effectively.
